

EI-SM200 Hand-held under vehicle video inspection device

Main Features

- ◆ Specialize in detecting under vehicle explosives, drugs, weapons and other contraband objects.
- ◆ High-definition camera gives the inspector a quick and clear image of the vehicle chassis.
- ◆ Equipped with strong lighting devices and a high resolution video camera; able to display vehicle chassis situation directly to the monitor screen even in complete darkness
- ◆ Manual control camera, 120°rotation angle, minimize blind spots.
- ◆ 7.4 inch high resolution real color LCD monitor.
- ◆ Extend search arm with a 150°curve, wider detection range, great adaptability and throughput.
- ◆ High-capacity lithium-ion battery, light weight and quick recharging, work about three hours per charge; also with charging protection function, automatic power off when charge complete.
- ◆ Portable and user-friendly, only take one person to operate.
- ◆ Ideal for prison, police station, army headquarters, airport, major events and other places which need vehicle safety check.

EI-SM200 Hand-held under vehicle video inspection device

General

- ◆ Monitor.....5.6 inch real color LCD monitor
- ◆ Detection range600mm
- ◆ Battery.....DC12V 4000mA NIMH chargeable Battery (another backup battery for free)
- ◆ Charging Time.....3-4 hour
- ◆ Battery duration.....3 hours in full load condition
- ◆ Camera Lens.....Manual-control waterproof High-definition CCD lens
- ◆ Camera Rotation Angle.....120°
- ◆ Search Arm Radian.....150°

Installation Requirements

- ◆ Size.....1500mm (W) × 300mm (H)
- ◆ Package size.....1700mm (L) × 150mm (W) × 470mm (H)
- ◆ Weight.....5Kg
- ◆ Operating current.....550mA
- ◆ Operating temperature.....-15℃~+50℃
- ◆ Storage Humidity.....20%~95% (Non-condensing)
